

Dear colleagues,

We are happy to announce the new program of the "Basel Seminar Series on Sleep and Circadian Rhythms" for the spring semester 2022, taking place Thursday, 4-5 pm, with the following program:

Date	Speaker	Title of talk
24th February	Dr. Renske Lok (Stanford University)	Non-image forming effects of light on alertness and sleep
10th March	Dr. Kate Porcheret (University of Oslo)	Sleep after traumatic events
24th March	Prof. Achim Kramer (Charité – Universitätsmedizin Berlin)	Molecular markers to assess circadian phase
7th April	Prof. Rex A. Wright (University of North Texas)	Circadian determinants of effort and associated cardiovascular responses: An interactional fatigue perspective
21st April	Johannes Zauner (Zentrum für angewandte Sehforschung)	Designing light for night shift workers: Application of nonvisual lighting design principles in an industrial production line
5th May	Prof. Kun Hu (Harvard Medical School)	Fractals in physiology: links to the circadian control network
19th May	Prof. Ken Wright (University of Colorado)	Causes and consequences of circadian misalignment
2nd June	Dr. Julia Ladenbauer (University Medicine Greifswald)	tba

All talks will take place online. For the zoom link please register here [Basel Seminar "Sleep & Circadian Rhythms" \(google.com\)](#). Registration is free of charge.
